DME Treatment of the Right Eye

According to the Protocol treatment criteria, the following DME treatment is <u>indicated</u> for the right eye:

See website for DME Treatment Message or Contact the Coordinating Center for assistance

<u>If the DME treatment message indicates that an injection must be performed</u>, you must complete the injection form. If the injection will not be performed for a reason other than adverse event or subject refusal (i.e. counter to the protocol), please contact the Protocol Chair or Coordinating Center designee for approval. Upon approval, complete the injection form by marking not done and indicate the reason, documenting the discussions with the Protocol Chair in the description.

<u>If the DME treatment message indicates that an injection must NOT be performed,</u> then an injection should not be performed. If you believe an injection is necessary you must contact the Protocol Chair or Coordinating Center designee for approval and complete a Request Injection Form to document approval and obtain a drug number before proceeding with an injection.

<u>If the DME treatment message indicates that laser must be performed</u>, you must complete the laser form. If the laser will not be performed for a reason other than adverse event or subject refusal (i.e. counter to the protocol), please contact the Protocol Chair or Coordinating Center designee for approval. Upon approval, complete the laser form by marking not done and indicate the reason, documenting the discussions with the Protocol Chair in the description. Do not complete question #1.

<u>If the DME treatment message indicates that laser must NOT be performed</u>, complete question #1 below. If you believe laser is necessary you must contact the Protocol Chair or Coordinating Center designee for approval.

1. Will focal/grid laser for DME be given in the right eye? ○ Yes ○ No **(LaserPlannedDMEOD)**

If Yes:

1a. Please indicate the reason laser will be given when not indicated:_____

1b. Was approval obtained from the Protocol Chair or Coordinating Center designee to give the right eye laser? (LaserPlannedDMEApprovalOD)
○ Yes ○ No

1c. If approval was not obtained, indicate the reason:_____

DME Treatment of the Left Eye

According to the Protocol treatment criteria, the following DME treatment is <u>indicated</u> for the left eye:

See website for DME Treatment Message or Contact the Coordinating Center for assistance

<u>If the DME treatment message indicates that an injection must be performed</u>, you must complete the injection form. If the injection will not be performed for a reason other than adverse event or subject refusal (i.e. counter to the protocol), please contact the Protocol Chair or Coordinating Center designee for approval. Upon approval, complete the injection form by marking not done and indicate the reason, documenting the discussions with the Protocol Chair in the description.

<u>If the DME treatment message indicates that an injection must NOT be performed,</u> then an injection should not be performed. If you believe an injection is necessary you must contact the Protocol Chair or Coordinating Center designee for approval and complete Request Injection Form to document approval and obtain a drug number before proceeding with an injection.

<u>If the DME treatment message indicates that laser must be performed</u>, you must complete the laser form. If the laser will not be performed for a reason other than adverse event or subject refusal (i.e. counter to the protocol), please contact the Protocol Chair or Coordinating Center designee for approval. Upon approval, complete the laser form by marking not done and indicate the reason, documenting the discussions with the Protocol Chair in the description. Do not complete question #1.

<u>If the DME treatment message indicates that laser must NOT be performed</u>, complete question #1 below. If you believe laser is necessary you must contact the Protocol Chair or Coordinating Center designee for approval.

1. Will focal/grid laser for DME be given in the left eye? ○ Yes ○ No **(LaserPlannedDMEOS)**

If Yes:

1a. Please indicate the reason laser will be given when not indicated:_____

1b. Was approval obtained from the Protocol Chair or Coordinating Center designee to give the left eye laser? (LaserPlannedDMEApprovalOS)
○ Yes ○ No

1c. If approval was not obtained, indicate the reason:_____

Were any of the data (other than visual acuity, refraction) recorded on forms for this visit transcribed <u>DIRECTLY</u> from another source (e.g., medical record, surgical notes, subject study worksheet) rather than being confirmed with the subject and directly entered on the website? ○ Yes ○ No **(DataTrans)**

If yes, please fax the source documents to the Jaeb Center for review at 1-800-816-7601.

GIFT CARD

1. Will a gift card be provided to the participant? O Yes O No

1a. If Yes, select the gift card number that corresponds with the gift card that will be provided:_____

1b. If No, indicate the reason a gift card will not be provided:_____

1c. If the visit is a 2-3 day post injection visit select the gift card number _____

If the visit is a 2-3 day post injection visit, the participant should receive a second gift card.
