A Comparative Effectiveness Study of Intravitreal Aflibercept, Bevacizumab and Ranibizumab for Diabetic Macular Edema (T)

Medical Update Form (Follow-up)

tblTMedUpFU

PtID: **(tblPtRoster.PtID)**

Patient Initials:

Study Eye: **(tblPtRoster.StudyEye)**

VISIT INFORMATION

1. Site Location:_____

☐ **Medical Update Not Done** **(MedUpFUNotDone)**
Reason not done:_____

MEDICAL UPDATE

1. Did subject commence or change the usage of any medications since last visit?
○ Yes ○ No **(PtMedChg)**
(If Yes, complete a Concomitant Medication Form.)

2. Hospitalization for any reason since last visit? ○ Yes ○ No **(HospitalLV)**
(If Yes, complete an Adverse Event Form if not already done.)

3. Did the subject report any symptoms or medical problems meeting the definition of an adverse event?
○ Yes ○ No **(PtRptAE)**
(If Yes, complete an Adverse Event Form if not already done.

An adverse event is any untoward medical occurrence in a study subject, irrespective of whether or not the event is considered treatment-related.

4. ☐ **I affirm that there are either no ongoing adverse events or that the ongoing events listed below were confirmed with the subject to be ongoing.** **(AffirmOngoingAE)**
(if any adverse event listed has resolved, select 'finish later' below then update the AE case report form found on the data entry menu. Once all resolved adverse events are updated, return to this medical update form to continue data entry for the visit)

OCULAR TREATMENT UPDATE – RIGHT EYE (OD)

Only complete this section if right eye is a study eye

1. Has the subject received any treatment for DME in the right eye since the last visit (at the study site or at a non-study site) that has not already been recorded? ○ Yes ○ No **(DMETrtLVOD)**
(If Yes, complete a Study Eye Non Protocol Treatment Form.)

2. Has the subject received any other treatment or surgery in the study right eye since the last visit that

has not been reported on a prior case report form? ○ Yes ○ No **(OthTrtLVOD)**
(If Yes, complete a Study Eye Procedure Form.)

3. Have there been any new ocular medical problems in the right eye meeting the definition of an adverse event since last visit? ○ Yes ○ No **(NewOcProbLVOD)**
(If Yes, complete an Adverse Event Form if not already done.)

An adverse event is any untoward medical occurrence in a study subject, irrespective of whether or not the event is considered treatment-related.

4. Has there been a change in an existing ocular medical problem in the right eye meeting the definition of an adverse event since last visit? ○ Yes ○ No **(ExistOcChgLVOD)**
(If Yes, complete an Adverse Event Form if not already done.)

OCULAR TREATMENT UPDATE – LEFT EYE (OS)

Only complete this section if left eye is a study eye

1. Has the subject received any treatment for DME in the left eye since the last visit (at the study site or at a non-study site) that has not already been recorded? ○ Yes ○ No **(DMETrtLVOS)**
(If Yes, complete a Study Eye Non Protocol Treatment Form.)

2. Has the subject received any other treatment or surgery in the study left eye since the last visit that has not been reported on a prior case report form? ○ Yes ○ No **(OthTrtLVOS)**
(If Yes, complete a Study Eye Procedure Form.)

3. Have there been any new ocular medical problems in the left eye meeting the definition of an adverse event since last visit? ○ Yes ○ No **(NewOcProbLVOS)**
(If Yes, complete an Adverse Event Form if not already done.)

An adverse event is any untoward medical occurrence in a study subject, irrespective of whether or not the event is considered treatment-related.

4. Has there been a change in an existing ocular medical problem in the left eye meeting the definition of an adverse event since last visit? ○ Yes ○ No **(ExistOcChgLVOS)**
(If Yes, complete an Adverse Event Form if not already done.)

NON-STUDY EYE OCULAR UPDATE

1. Has the subject experienced any new ocular medical problems or had a change in an existing ocular medical problem in the non-study left/right eye meeting the definition of an adverse event since last visit? ○ Yes ○ No **(NSNewOcuProb)**
(If Yes, complete an Adverse Event Form if not already done.)
